

THE TOWER

An assault tower full of surprises

Crazy and clumsy british soldiers prepare a large medieval assault tower to attack the enemy. But they are not always sure of who the enemy is and get involved in many funny situations that make everyone laugh.

The tower is their attack weapon but it has also become their home and they will find themselves in domestic action in the midst of a war.

A static show of physical comedy, live music and full of gags, surreal actions and situations to make all audiences laugh.
